

Plant Management Safety Training Scheme (PMSTS)

Course Overview

This course will help plant managers, instructors, agents and supervisors to manage health and safety on site, in the training area and workshop area in accordance with legal provisions and within the context of their management and supervisory roles. The course will help to develop an understanding of responsibilities and accountability for site health, safety and welfare and to recognise a safe site that is efficient, economical and productive.

Course Objectives

To help plant managers, instructors, agents and supervisors to;

- Manage health and safety on site, training areas and workshop areas in accordance with legal provisions, and within the context of their management or supervisory roles
- Develop an understanding of responsibilities and accountability for site health, safety and welfare, and
- Recognise that safe sites, training areas and workshops are efficient, economical and productive.

At the end of the period of training, Delegates will be aware of, and able to;

- Implement all health, safety, welfare and environmental legislation that affect them during their daily work
- Implement new guidance and industry best practice
- State their duties and responsibilities with regards to health, safety, welfare and the environment.

Course Content

The course covers all the relevant legislation and other aspects which affect safe working in the construction plant industry, civil engineering industry and building industry. It highlights the need for risk assessment in the workplace, the implementation of the necessary control measures and adequate communication to sustain a health and safety culture among the workforce.

Who Should Attend

This course is designed for plant managers, plant instructors, plant inspectors, workshop managers, project managers, agents and persons who are, or who are about to be, responsible for planning, organising, monitoring, controlling and administering staff, groups of staff and workforce.

Number of Candidates per Course

16
